🪪 Profile

I am a proficient web application developer with **1.8 years** of hands-on experience, specializing in front-end technologies such as **React**, **JavaScript**, **Tailwind CSS**, **Bootstrap**, **CSS**, and **HTML**. My responsibilities include developing and maintaining **reusable components**, ensuring **responsive** and visually appealing designs, and seamlessly integrating APIs to enhance user experiences. I am committed to continuously improving **code quality** and enjoy collaborating with **cross-functional teams** to deliver **high-quality software solutions**.

💼 Professional Experience

iFocus Systec
UI Developer ⬈
10/2023 – present
Bengaluru, India

- **Designed and developed** the front end of applications using React.js, JavaScript, Tailwind CSS, Bootstrap, CSS3, and HTML5.
- **Created responsive and accessible designs** for mobile, tablet, and desktop views based on Figma designs provided by UI/UX designers.
- **Collaborated** with back-end developers, UI/UX designers, and other team members to translate design requirements into functional components.
- **Ensured responsive, modular, maintainable, and performant code** to deliver seamless user experiences.
- **Tracked all UI-specific tasks and bugs** using JIRA for both the application and website.
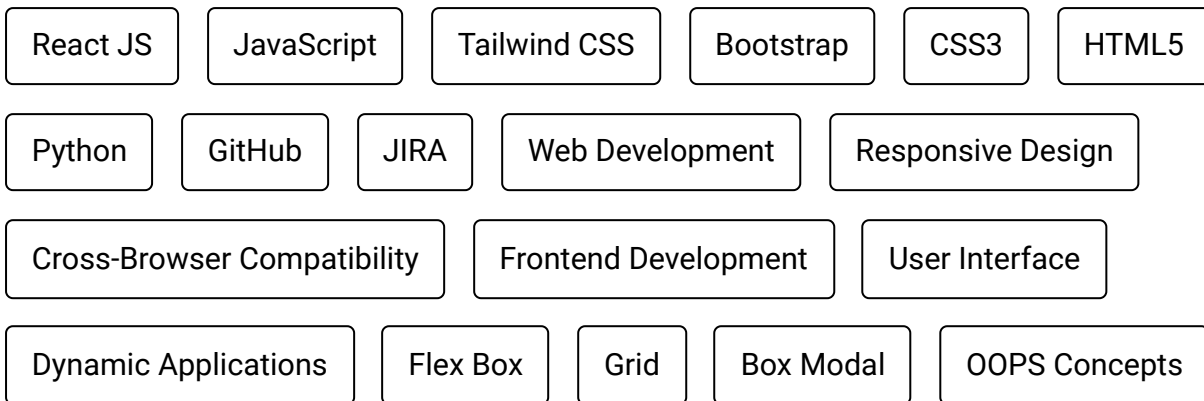

NxtWave
Teaching Assistant ⬈
08/2022 – 01/2023

- Assisted fellow students by resolving their queries and **clarifying concepts**.
- Fostered a collaborative learning environment to enhance peer **understanding of key topics**.
- Provided guidance to ensure academic progress and improve **problem-solving skills**.

🧠 Skills

| React JS | JavaScript | Tailwind CSS | Bootstrap | CSS3 | HTML5 |

| Python | GitHub | JIRA | Web Development | Responsive Design |

| Cross-Browser Compatibility | Frontend Development | User Interface |

| Dynamic Applications | Flex Box | Grid | Box Modal | OOPS Concepts |

📁 Projects

TestServ - Testing as a Service

*TestServ is an AI-powered, **low-code/no-code automated testing platform** designed to optimize software testing processes.*

- Led the **design and development of user interfaces** for the platform, ensuring a seamless integration of AI and automation features.
- Created intuitive **dashboards and interactive components** that empowered non-technical users to navigate testing workflows efficiently.
- Worked closely with product and development teams to **translate complex functionality into simple, visually appealing UI designs.**
- Focused on improving the platform's **accessibility**, **usability**, and **visual consistency** to support a wide range of business users.
- Enhanced the testing process by designing interfaces that allowed users to **manage** and **monitor test execution** with minimal manual effort.

🎓 Education

Master of Computer Applications   2020 − 2022
Vikrama Simhapuri University

Bachelor of Science   2017 − 2020
Vikrama Simhapuri University
